

FREDERICK POINT NORTH SUBDIVISION

The Frederick Point North Subdivision is located on the north end of Mitkof Island about 3 to 4 miles east of the central business district of Petersburg, within the City of Petersburg municipal boundaries. The subdivision is zoned “Rural Residential” and is subject to applicable local ordinances and property assessments. The zoning allows for single-family residences with a minimum lot size of one acre.

The subdivision includes 86 lots; 19 of the lots have frontage on Frederick Sound and the rest are interior lots. Most of the development has occurred on the waterfront lots. The state still owns 33 interior lots which are not presently accessible by road; the lots will be offered for sale when access is developed or demand warrants. A one-lane gravel road was recently constructed through the subdivision to develop a new water source for the city of Petersburg. The two lots offered for sale, Parcels 16 and 17, have frontage on the new road. Electric power, telephone, city water and sewer have not been extended to the subdivision although there are fire hydrants with untreated water at intervals along the road. Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof-catchment systems.

Parcel 16 is located in the northeastern portion of the subdivision. It is 2.3 acres in size and has 325 feet of road frontage. The lot is generally level with predominately muskeg soils and vegetation and some pine, hemlock and cedar trees. The lot has a territorial mountain view and is generally oriented to the north.

Parcel 17 is located in the approximate center of the subdivision. The lot is 2.6 acres in size and has 210 feet of road frontage. There is a seasonal creek that drains the southeast portion of the lot. The lot is largely muskeg with some forested areas, indicating it has better drainage than Parcel 16. The topography is generally level however, there is an embankment along the road that rises from road elevation to about 8 feet above the road on the mid portion of the road frontage. The parcel has a territorial mountain view and is generally oriented to the north.

A permit from the U.S. Army Corps of Engineers would most likely be required prior to construction of a driveway or building pad on either lot.

Mild winters, cool summers and abundant, year-round precipitation characterize the climate for the Petersburg area. Average temperatures range from 45 degrees to 64 degrees in the summer and 22 to 37 degrees in the winter. Annual precipitation averages 106 inches, including 97 inches of snow.

Special Note:

The Frederick Point North Subdivision was approved by the Department of Environmental Conservation for non-water carried type sewage disposal systems (i.e. chemical, humus, incendiary, etc.) Anyone wishing to install any other type of disposal system must first receive approval from the Department of Environmental Conservation. No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed and

equipped in accordance with the requirements of the Alaska Department of Environmental Conservation. Approval of such systems shall be obtained from said authority.

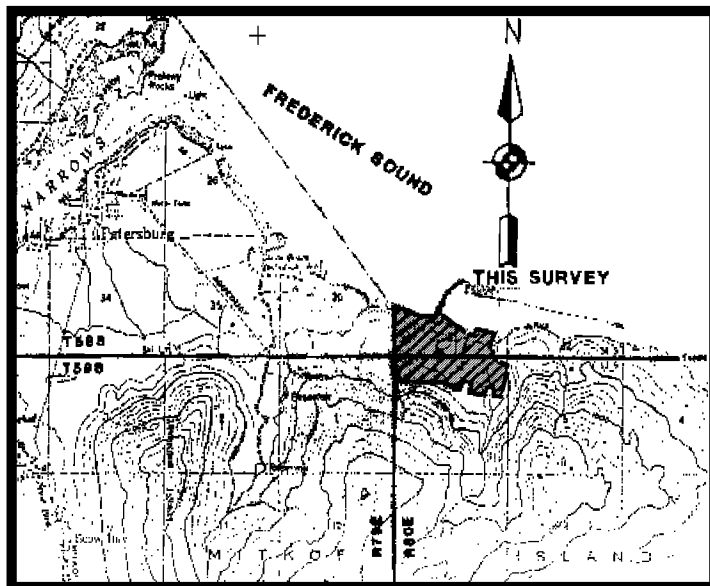

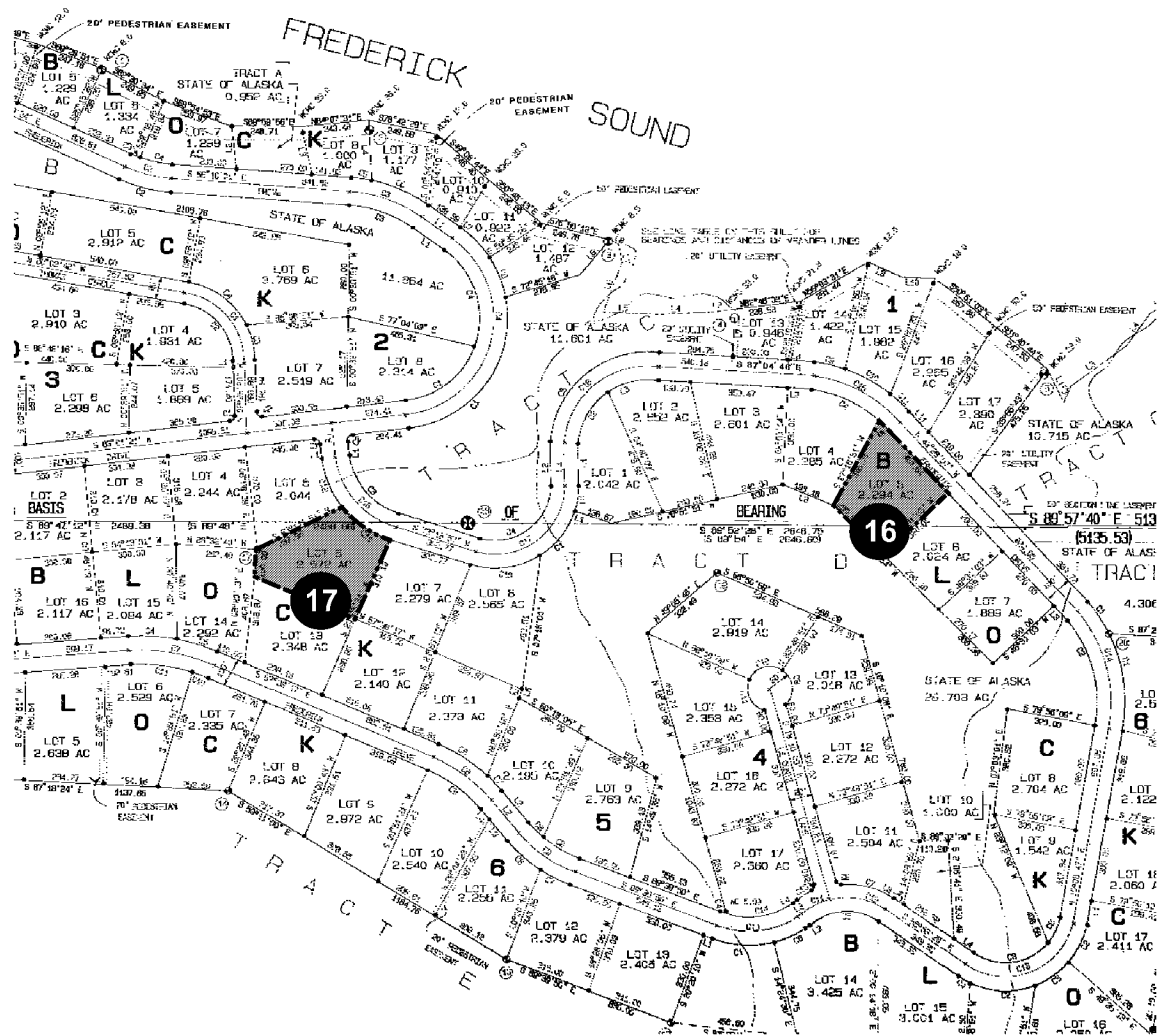

FREDERICK POINT NORTH AUCTION SALE – VETERAN’S PREFERENCE

PARCEL	ADL	MTRS	DESCRIPTION	SURVEY	ACRES	RESERVATION CODE	MINIMUM BID	COMMENT
16	104207	C058S080E31, C059S080E6	Block 4, Lot 5	ASLS 83-31	2.294	BB	\$27,500	
17	104225	C058S080E31, C059S080E6	Block 5, Lot 6	ASLS 83-31	2.572	BB	\$34,700	

Note:

1. A **veterans’ land discount** is **not** applicable for the purchase of a parcel (parcels 16-17) at the veterans’ preference auction.
2. The bids for veterans’ preference auction parcels will be opened first. After the veterans’ preference auction, the remaining parcels will be auctioned immediately to any qualified bidder at the regular portion of the sealed-bid auction.

RESERVATION CODES LIST

The following is a list of some of the restrictions and easements recorded on the survey plat or reserved by the state through the department decisions. This list is not all-inclusive. **The subdivision plat may impose additional restrictions not listed in the brochure.** For more detailed information, applicants should review the subdivision plat at any of the three DNR Information Offices listed on pages 4-5.

- A. Subject to a 10-foot-wide public utility easement.
- B. Subject to a 30-foot-wide utility easement.
- C. Subject to a 20-foot-wide public utility easement adjacent to the dedicated road right-of-way.
- D. Subject to a 15-foot-wide public utility easement.
- E. Subject to a 20-foot-wide public utility easement.
- F. Subject to a 30-foot-wide public utility easement within all lots and tracts adjacent to the right-of-way.
- G. Subject to a 15-foot-wide utility easement on common interior lot lines.
- H. Subject to a 30-foot-wide utility easement on lot lines not common with other lots.
- I. Subject to a 50-foot-wide section line easement on either side of the section line. This is reserved under AS 19.10.010 to the State of Alaska for public highways.
- J. Subject to a 50-foot-wide public access easement up from the ordinary or mean high water mark, pursuant to AS 30.04.055 and AS 38.05.127.
- K. Subject to a 30-foot-wide public access easement.
- L. All lands encompassed by this survey are subject to a 50-foot-wide access easement along the mean high water or ordinary high water line of any water frontage of any sort.
- M. Before an on-site sewage disposal system can be installed on a lot within this subdivision, approval must be obtained from the Alaska Department of Environmental Conservation.
- N. Water supply and sewage disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed and equipped in accordance with the requirements of the Alaska Department of Environmental Conservation.
- O. There is an easement of 30-foot radius at each pole location for guys or anchors.

- P. Structures shall not be placed closer than seventy-five feet from the normal high water mark of a watercourse or body of water of any sort.
- Q. Subject to a 10-foot-wide utility easement on common interior lot lines.
- R. Subject to a 20-foot-wide utility easement on lot lines not common with other lots.
- S. Subject to a 10' by 30' anchor easement.
- T. Subject to a 5' pedestrian easement.
- U. Subject to a 30' pedestrian and road easement.
- V. Subject to a 15' utility easement along all lot lines.
- W. The outer 20' of both sides of the 100' roadway right-of-way is reserved for utility use.
- X. Subject to a monument preservation easement five feet radial around all BLM and ADL monuments.
- Y. Subject to a 10' slope maintenance easement.
- Z. Subject to a 20' slope maintenance easement.
- AA. There is a 15' utility easement each side of common interior lot lines and inside any lot lines fronting a right-of-way.
- BB. Subject to the Veterans' Preference Restrictions listed in this brochure if sold in the veterans' preference auction.
- CC. Subject to a 10-foot-wide pedestrian and utility easement.
- DD. Subject to a 10-foot-wide pedestrian access easement.
- EE. Subject to a 50-foot-wide easement for public access and for temporary storage of small boats.
- FF. Subject to a 10-foot-wide pedestrian easement.
- GG. Section Line Easement Vacation Plat EV 2-094 has been recorded as Plat No. 80-11, Date 6-30-80, Nenana Recording District.
- HH. Subject to a 60-foot public access easement centered along and 30-feet on each side of an existing road.

- II. Subject to a 25-foot public access easement.
- JJ. Subject to a 10-foot-wide drainage easement.
- KK. Subject to a 10-foot pedestrian access and drainage easement.
- LL. Subject to a 25-foot non-motorized trail easement.
- MM. Subject to a 20-foot-wide existing trail easement.
- NN. Subject to a 50-foot trail easement.
- OO. Subject to a 10-foot public non-motorized trail easement.
- PP. Subject to a 50-foot public access and utility easement.
- QQ. Subject to a 30-foot screening easement.
- RR. Subject to a 17-foot utility easement.
- SS. Subject to a 25-foot-wide public recreational easement.
- TT. Section Line Easement Vacation Plat No. EV-2-68 has been recorded as Plat # 80-14, Chitina Recording District on April 1, 1980, vacating the section line between sections 21 and 28, and 27 and 28 within this subdivision.
- UU. Subject to Mitkof Highway right-of-way, 50 feet each side of centerline.

Veterans' Land Discount

Note: The veterans' land discount does not apply to parcels 1-17 acquired with a veterans' preference.

Eligible veterans may receive a 25 percent discount on the purchase of State land (AS 38.05.940). The veterans' land discount may only be used **once** in an applicant's lifetime. To be eligible, an individual must submit proof, acceptable to the department, that the purchaser:

- is 18 years of age or older at the date of sale;
- **has been a resident of the State of Alaska** for a period of not less than one year immediately preceding the date of sale (see Residency Requirement on page 6);
- has served on active duty in the U.S. armed forces for at least 90 days, unless tenure was shortened due to a service-connected disability or due to receiving an early separation after a tour of duty overseas (use Form DD 214); and
- has received an honorable discharge or general discharge under honorable conditions.

For the purposes of this program, armed forces are limited to the United States Army, Navy, Marines, Air Force, and Coast Guard. Service in State National Guard units, the Alaska Territorial Guard, as well as Army, Navy, Marine, and Air Force Reserve service may also be included, provided the applicant can document the accumulation of 90 days of active duty service. A Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty must be submitted. **Interested veterans are encouraged to request their Form DD 214 well in advance of the auction.**

The veterans' land discount may be applied only to acquisition of surface rights to the land. **It may not be applied to survey and platting costs, or other costs reimbursable to the state.** These costs will be subtracted from the purchase price before the discount is calculated. The reimbursable cost per acre or lot is listed in the table on pages 17-18.

Successful bidders who qualify for the veterans' land discount must apply for the discount at the time of purchase. The amount of the discount will be deducted from the principal sum of the sales contract or from the purchase price if the purchase price is paid in full.

Here is an example of how a veterans' land discount would be calculated for a 3.349-acre parcel with reimbursable costs of \$959 per acre, and a bid price of \$14,000.00:

\$14,000.00	bid price
<u>- 3,211.69</u>	reimbursable costs (\$959 per acre x 3.349 acres)
\$10,788.31	price eligible for discount
- 2,697.08	25% veteran's land discount
\$14,000.00	bid price
- 2,697.08	discount amount
\$11,302.92	discounted purchase price
<u>- 700.00</u>	5% down payment of the full purchase price (do not submit a down payment based upon the discounted purchase price)
<u>\$10,602.92</u>	balance due
